Malta, a charming island located in the middle of the Mediterranean Sea, is a true treasure trove of history and architecture. As a participant of the Erasmus program, I had the extraordinary opportunity to discover its magical corners and capture them through the lens of my camera. My journey focused mainly on the Three Cities and the capital city - Valletta, where monuments and narrow streets create a unique atmosphere.

Valletta, founded in the 16th century by the Order of Saint John, is a true masterpiece of Baroque architecture. Walking through its narrow streets, surrounded by stone buildings and Baroque churches such as the Church of Our Lady of Mount Carmel or the Church of Our Lady of Safe Haven and St. Dominic, I felt as if time had stood still. Every detail, from colorful balconies to richly decorated church interiors, reminded me of Malta's long history and the diverse cultural influences that shaped its architecture.

During my stay, I focused on photographing these historical sites. Although I did not have equipment for mobile digitization, which I use in my daily work as a specialist in cultural institution, my camera allowed me to capture the beauty and atmosphere of Maltese landmarks. Each photograph was an attempt to capture not only their aesthetics but also their significance as testimonies to history and cultural heritage.

Additionally, during my time in Malta, besides photographing landmarks, I had the opportunity

to observe the daily lives of the locals. Walking through the narrow streets of Valletta and the Three Cities, I observed how modernity coexists with history, creating a unique, multidimensional landscape. Maltese cafes, artisan shops, and traditional cultural festivals bring life to these landmarks, showcasing their role not only as tourist attractions but also as integral parts of the local community.

Contemplating picturesque churches like the Church of Our Lady of Mount Carmel and the Church of Our Lady of Safe Haven and St. Dominic, along with their narrow, picturesque streets, I realized how every stone tells a story of Malta's rich history. These places not only captivate with their aesthetics but also serve as reminders of the invaluable cultural heritage that Malta offers to the world.

Malta not only dazzles with its architecture but also with its rich history, spanning from ancient times through the era of the Knights of Malta to the present day. Discovering these stories was incredibly inspiring for me and helped me better understand the heritage of this fascinating place.
